

## To whom it may concern

### Shelf Life

#### Crystal Sugar:

According to Regulation (EU) No 1169/2011, Annex X, an indication of the date of minimum durability ('best before' / 'used by' date) is not required for solid sugar.

Sugar retains its specific properties and can be stored for virtually an unlimited time under the following conditions:

Temperature	>10 °C
Relative humidity	< 65%

#### Liquid Sugars:

The best-before date applies from the date of manufacture, i.e. lot identification. In the case of packaged goods, it is easy to read off the date of manufacture directly from the L-number. In the case of bulk goods, the lot identification is the same as the delivery note number, i.e. the best-before date counts from the day of delivery (or tanker filling, if there are one or more days in between).
